Database Management System

Author :	Japneet Kaur
ISBN 13 :	978-93-80016-05-4
ISBN 10 :	93-80016-05-0
E-ISBN 13 :	978-93-80016-05-4
Edition :	1
Pages :	580
Type of book :	Paperback
Weight (g) :	100.00
Year :	2010
Language :	EN
Publisher :	Khanna
Price :	Rs 350.00
Categories :	Computer Science Engineering , Khanna Publishing House
Condition	New
Type :	
Country	India
Origin :	

Product Description

The major objective of this book is to provide a strong formal foundation in database concepts, technology and practice to the readers to groom them into well-informed database application developers. Rather than discussing isolated knowledge/experience fragments in each of the concepts, technology and practice, the book will aim at achieving a good blend of the three. The overriding concern, therefore, is to include just enough concepts and theory to motivate and enrich the practical component, and to include technology component to maximize the relevance of the book to the industry without sacrificing the long-term objectives of rigour and foundational strength that can withstand the vagaries of technological advances. Written in simple and lucid language. Covers the UG and PG courses of various universities. Designed for the students as well as for the professionals. covered wide ranging topics with flexible organization and logical flow, enriched with large no. of examples and illustrative figures. Beside the basic fundamentals of DBMS this book also covers the advanced topics in database system such as distributed databases recovery, Transaction, concurrency and security etc. Special emphasis has been given on emerging trends in database System. numbers of expected questions are given for practices.

Table of Contents

Chapter 1: Fundamentals of Database Management Systems
Chapter 2: Database concepts and Architecture
Chapter 3: Data Models
Chapter 4: Entity Relationship Modeling
Chapter 5: Relational Database Management System
Chapter 6: Relational Algebra and Calculus
Chapter 7: Normalization
Chapter 8: Structured Query Language
Chapter 9: Transaction Management
Chapter 10: Concurrency Control
Chapter 11: Recovery
Chapter 12: Database Security and Integrity
Chapter 13: Object Oriented Databases
Chapter 14: Distributed Database Management System
Chapter 15: Expert System
Chapter 16: Oracle Structured Query Language* Plus
Chapter 17: Procedural Languages/Structured Query Language
Chapter 18: Developer Form
Chapter 19: Developer Report
